Boccia na escola

A turma do 5º7

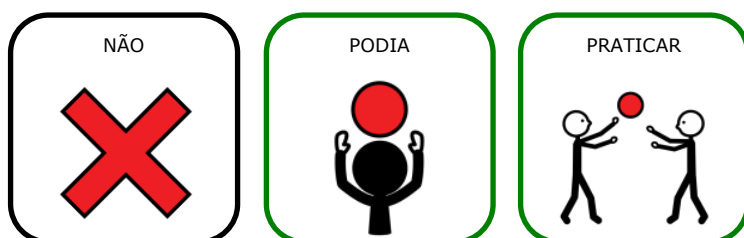

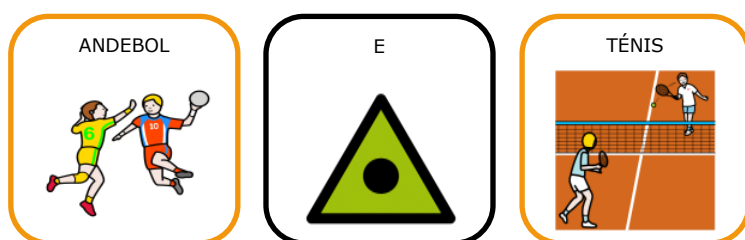

A turma do 5º 7 tinha um problema.

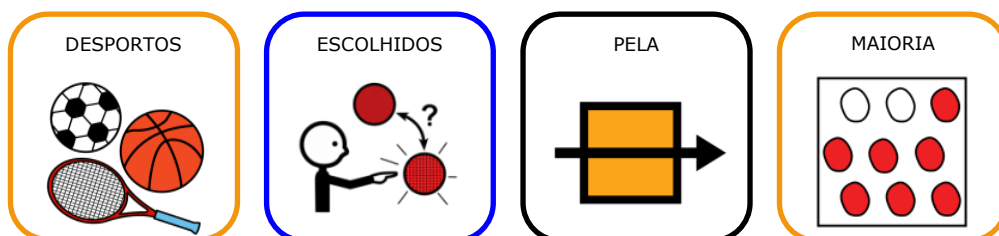

A professora disse que o Alexandre

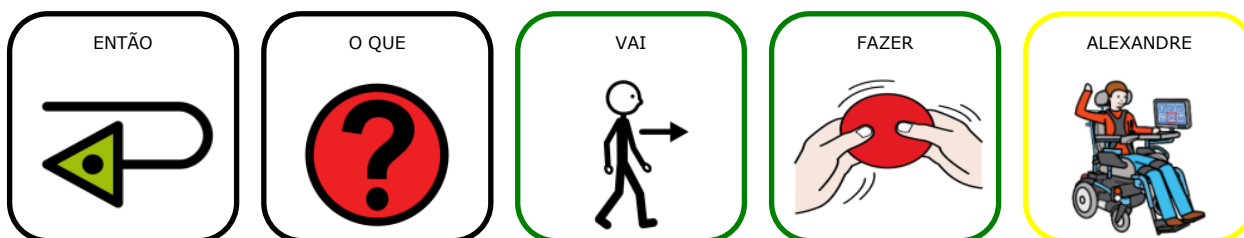

não podia praticar

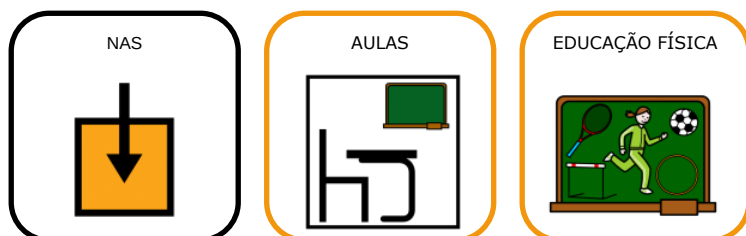

andebol e ténis,

os desportos escolhidos pela maioria.

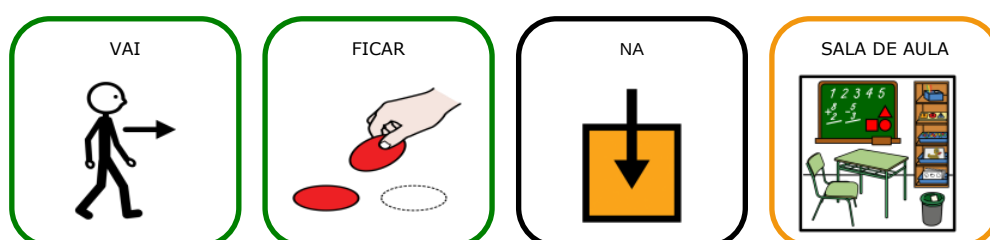

- Então, o que vai fazer o Alexandre

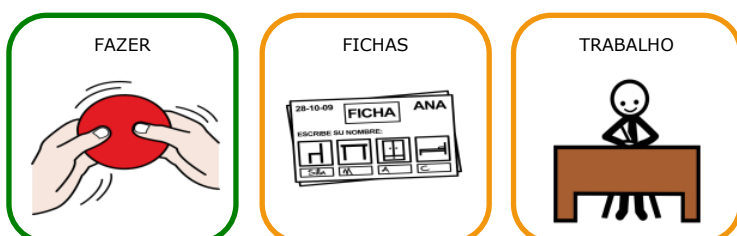

nas aulas de Educação Física? -

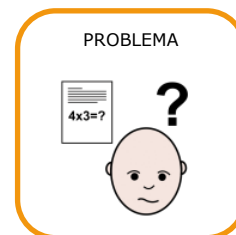

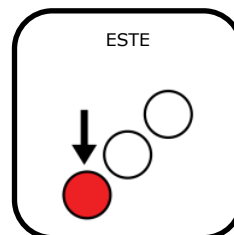

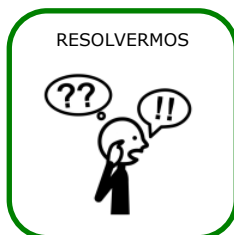

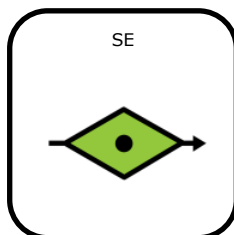

debatiam os colegas de turma.

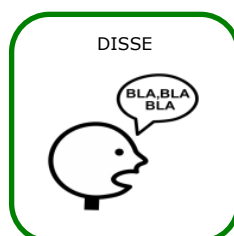

- Vai ficar na sala de aula

a fazer fichas de trabalho,

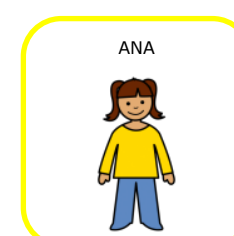

se não resolvermos este problema... -

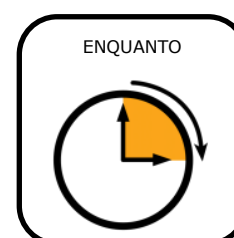

disse a professora.

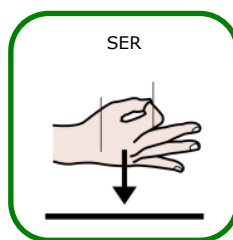

- O quê? -

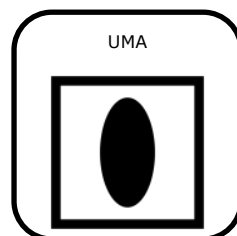

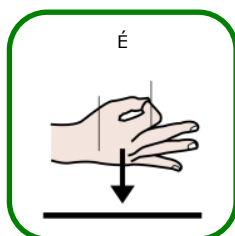

responderam o Luís, a Ana e o Pedro,

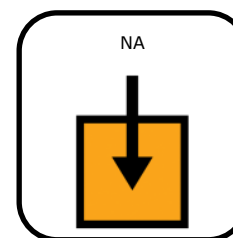

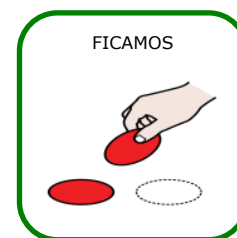

enquanto o Alexandre revirava os olhos.

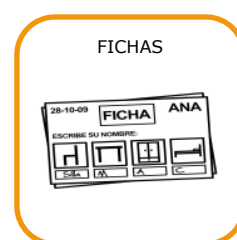

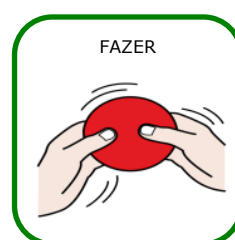

- Não pode ser,

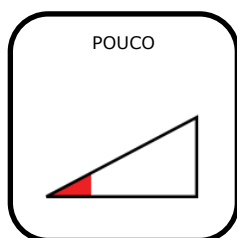

é uma injustiça.

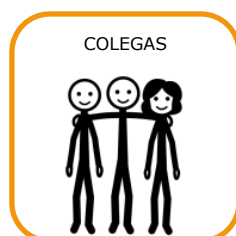

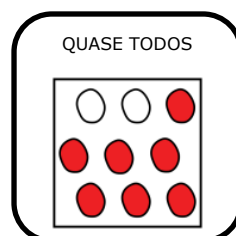

Também ficamos na sala de aulas

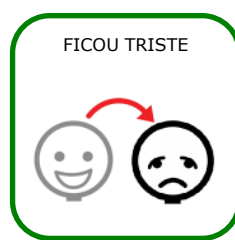

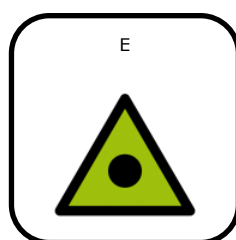

a fazer fichas!

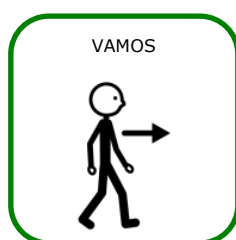

Concordaram, pouco convencidos,

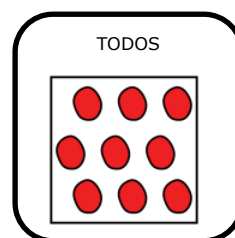

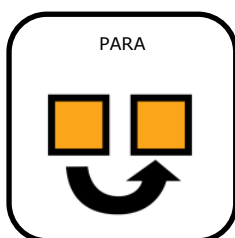

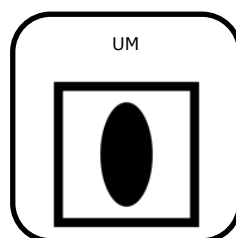

quase todos os colegas

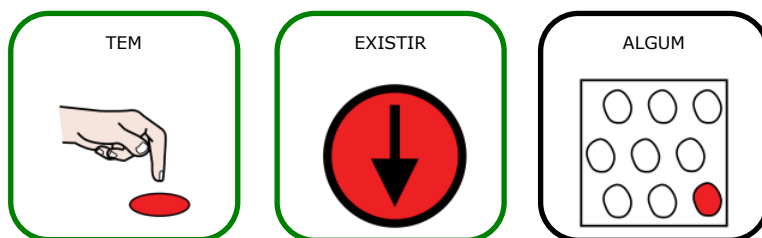

e o Alexandre ficou triste.

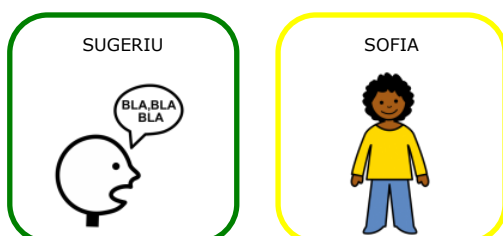

- Vamos descobrir

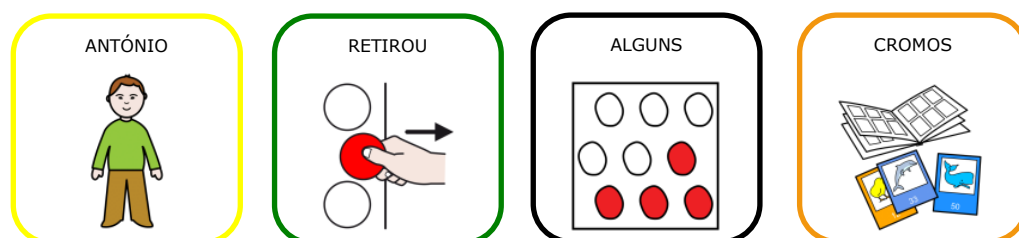

um desporto para todos!

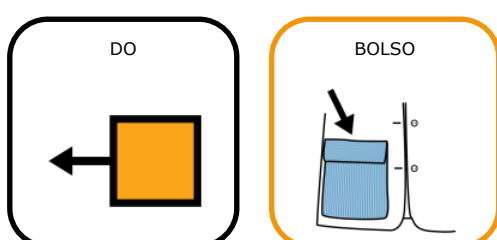

Tem de existir algum... -

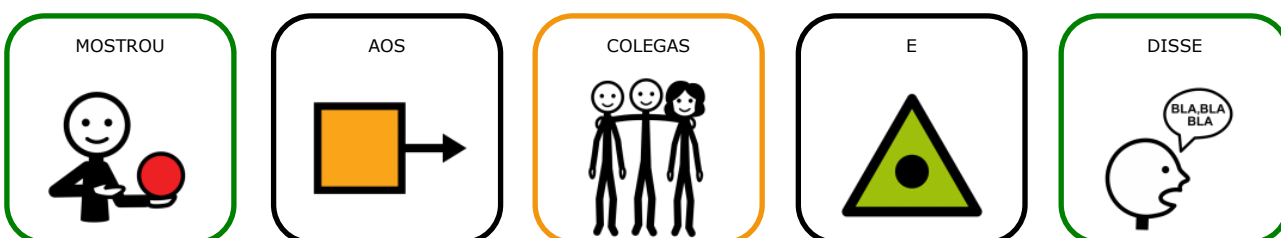

sugериu a Sofia.

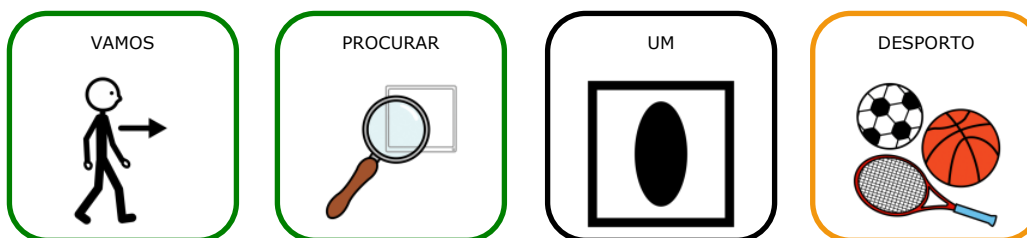

O António retirou alguns cromos

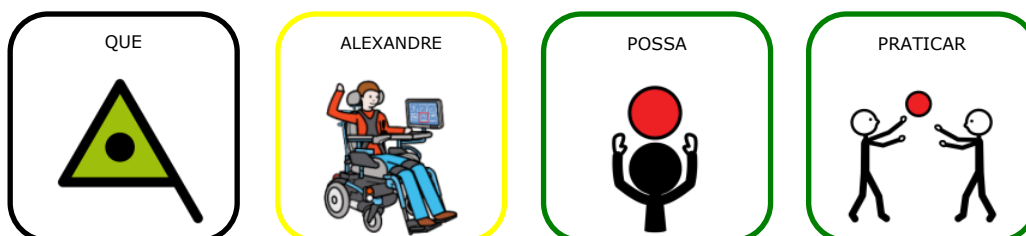

do bolso,

mostrou-os aos colegas e disse:

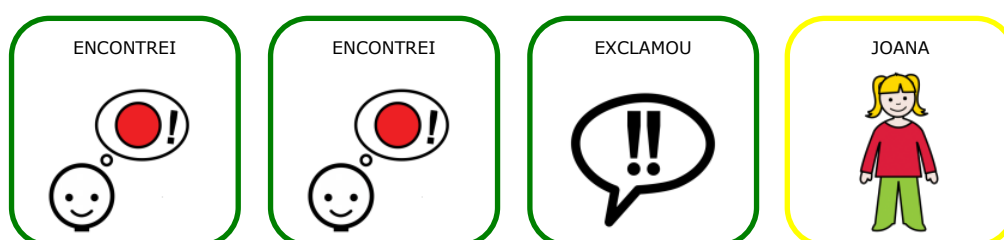

- Vamos procurar um desporto

que o Alexandre possa praticar,

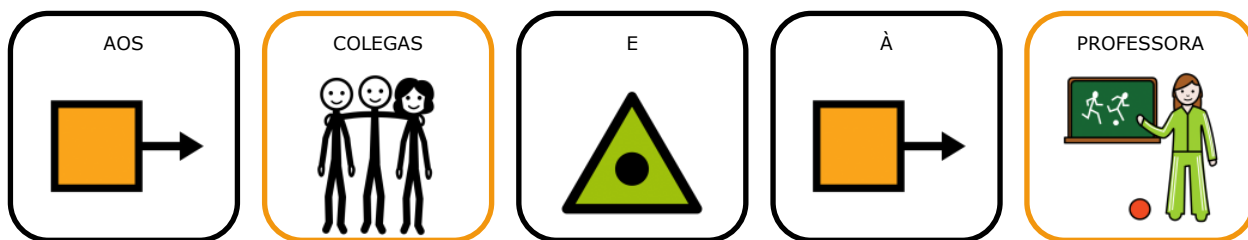

na coleção "Super Desportos".

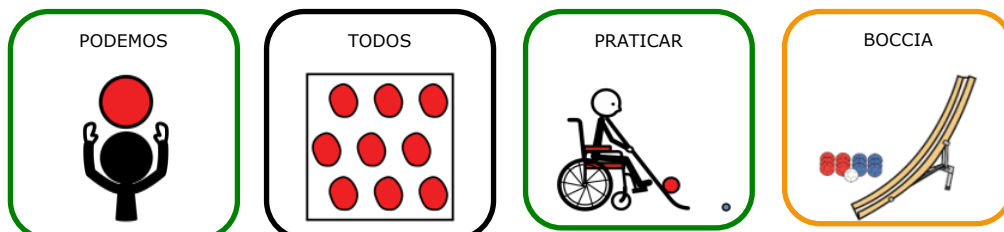

- Encontrei! Encontrei! - exclamou a Joana -

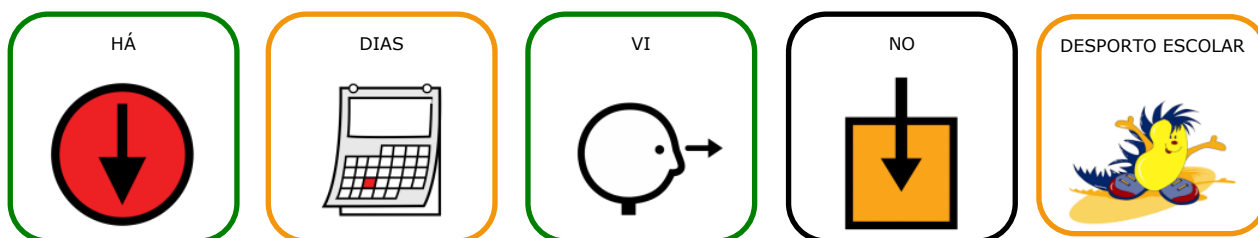

mostrando o cromo "Boccia"

aos colegas e à professora.

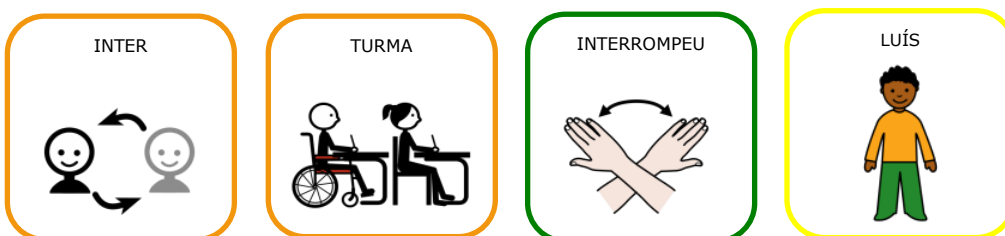

- Podemos todos praticar Boccia!

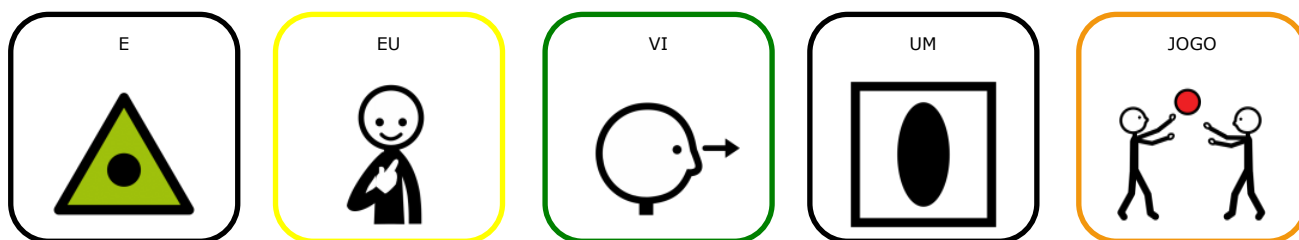

Há dias, vi no desporto escolar

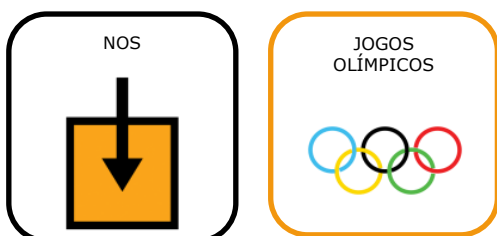

uma competição de Boccia

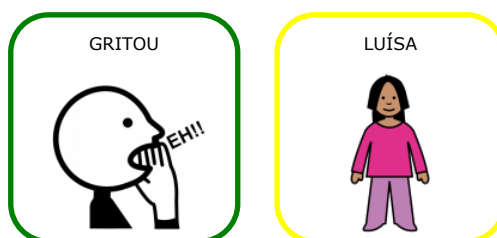

interturmas. - interrompeu o Luís.

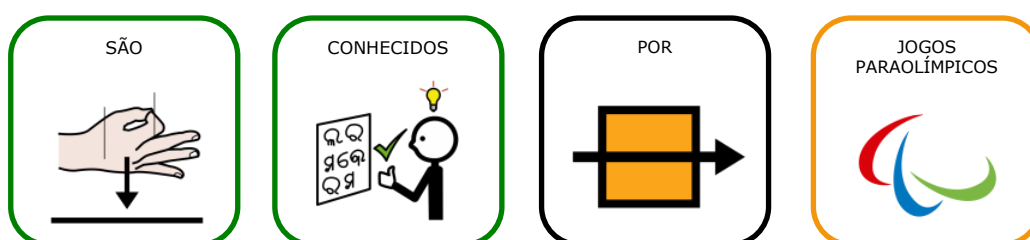

- E eu vi um jogo

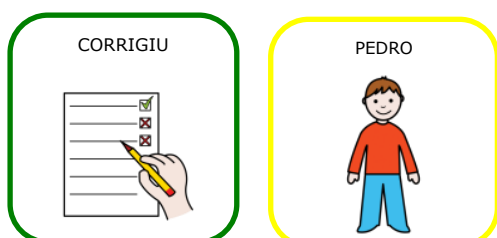

nos Jogos Olímpicos! -

gritou a Luísa.

- São conhecidos por Jogos Paraolímpicos -

corrigiu o Pedro.

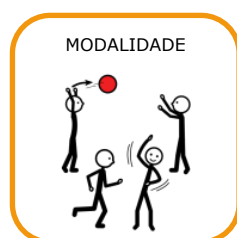

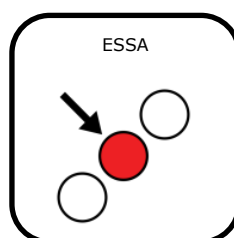

O Alexandre concordou sorrindo.

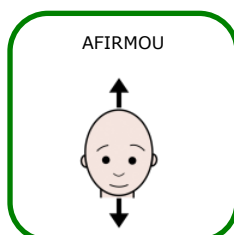

- Professora,

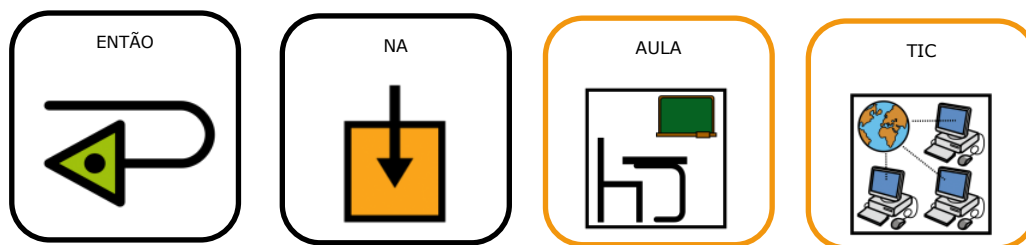

o Alexandre conhece

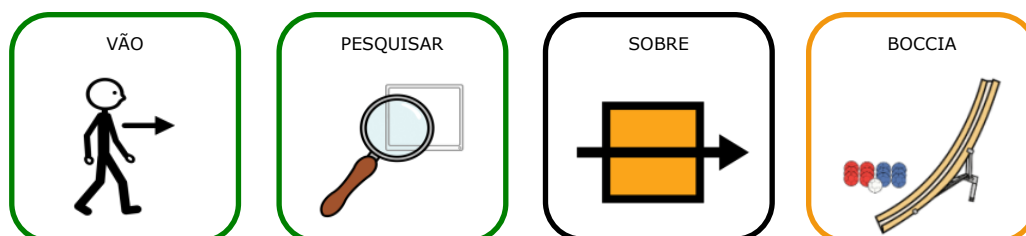

essa modalidade desportiva -

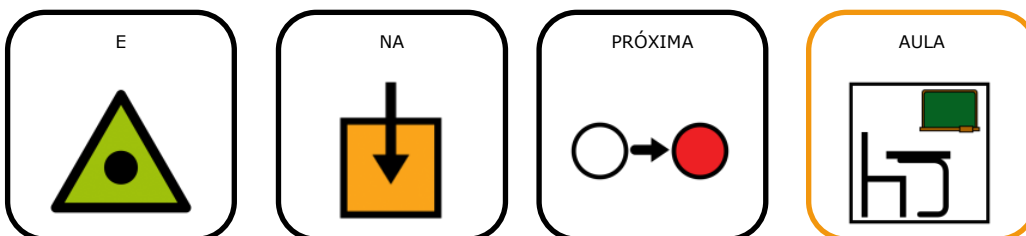

afirmou o Pedro.

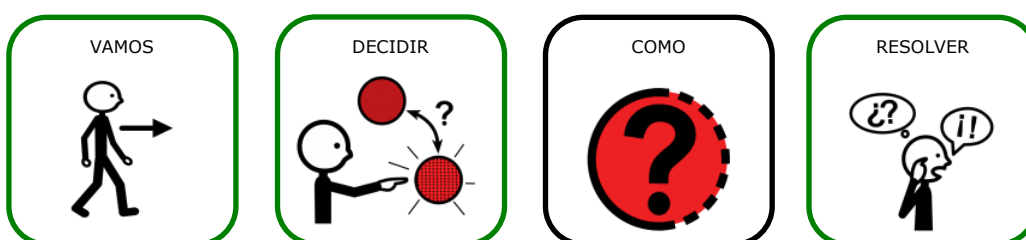

- Então, na aula de TIC

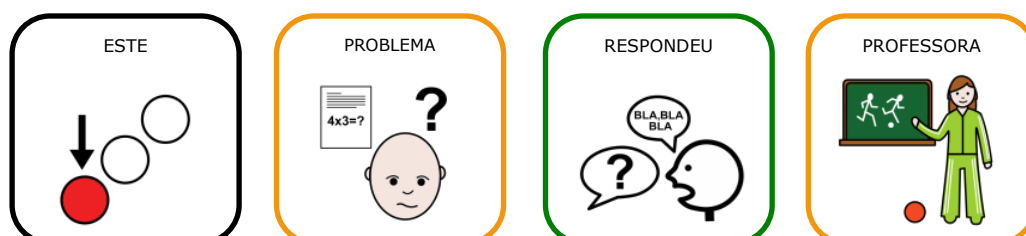

vão pesquisar sobre Boccia,

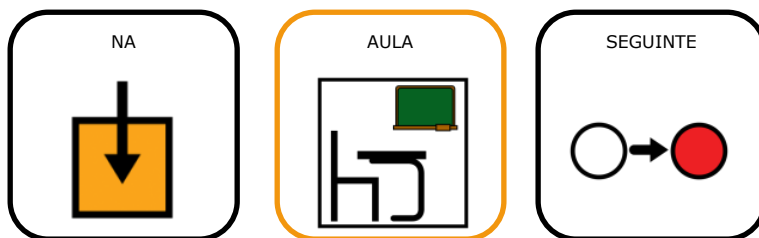

e, na próxima aula,

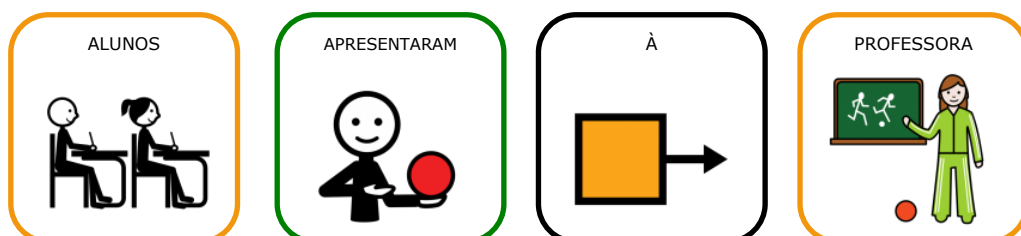

vamos decidir como resolver

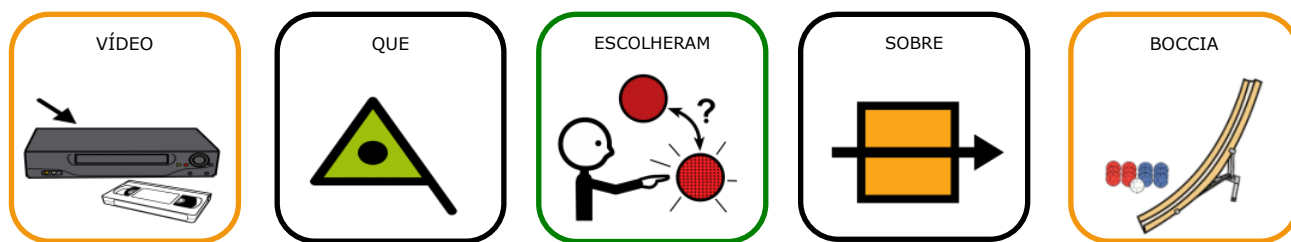

este problema. - respondeu a professora.

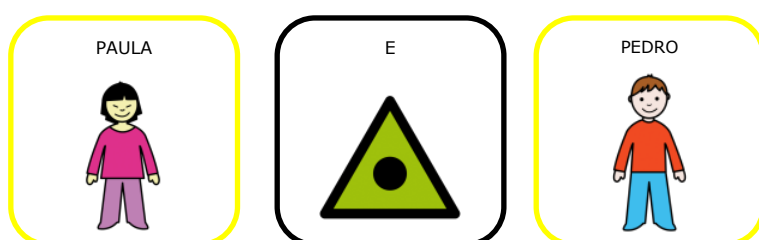

Na aula seguinte,

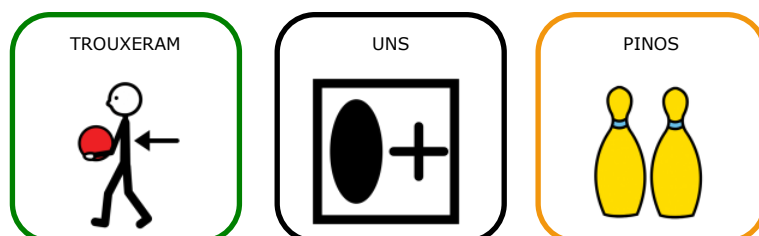

os alunos apresentaram à professora

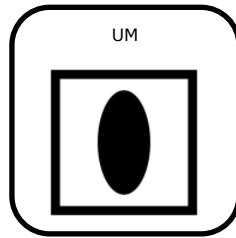

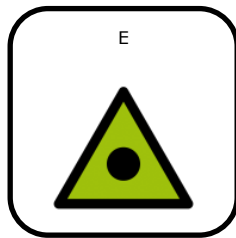

o vídeo que escolheram sobre o Boccia.

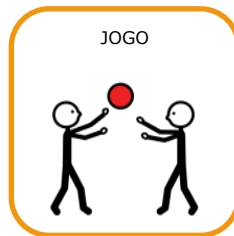

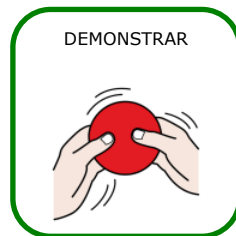

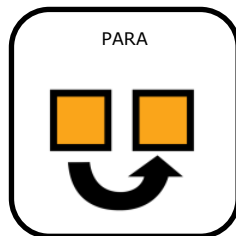

A Paula e o Pedro

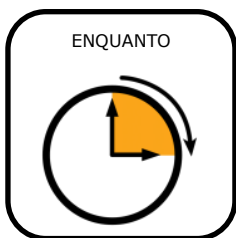

trouxeram uns pinos

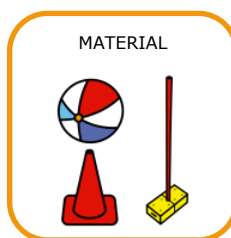

e um saco de bolas

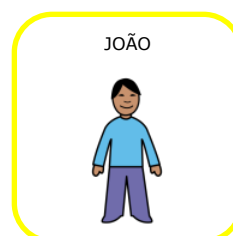

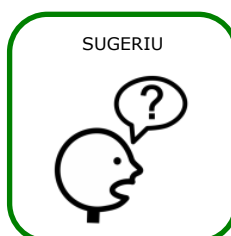

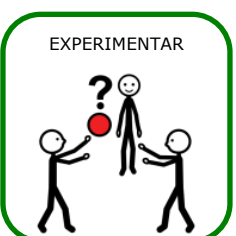

para demonstrar o jogo,

enquanto não descobriam

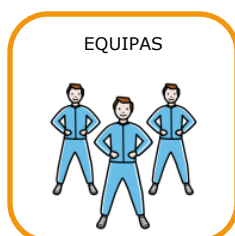

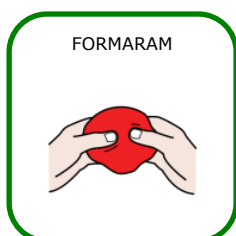

como arranjar o material desportivo.

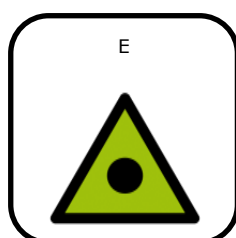

- Vamos experimentar? - sugeriu o João.

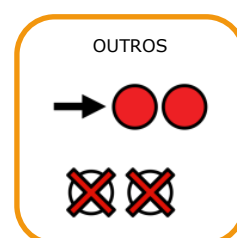

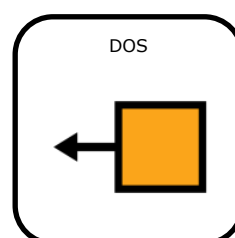

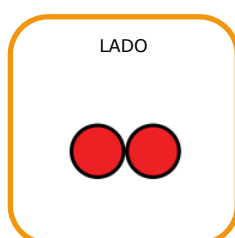

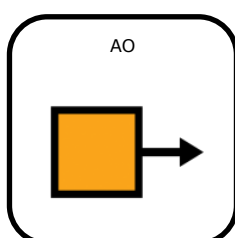

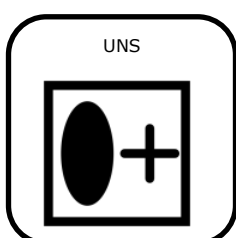

Assim,

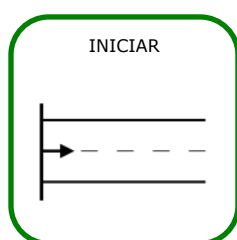

formaram duas equipas

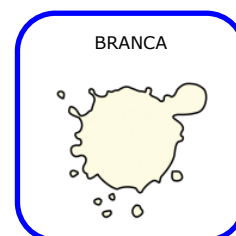

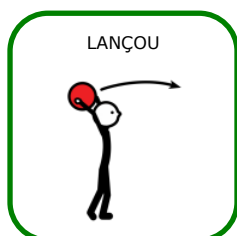

e colocaram-se

uns ao lado dos outros.

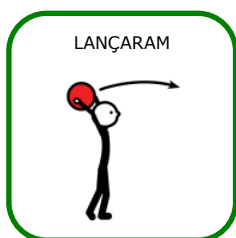

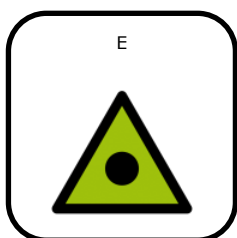

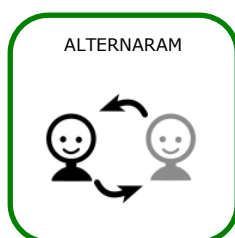

Para iniciar,

o Pedro lançou uma bola branca.

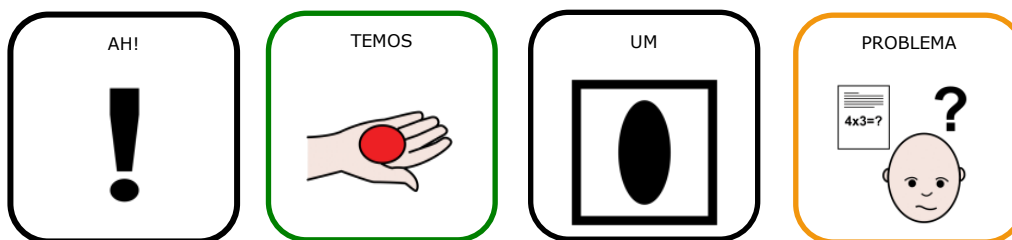

Os restantes,

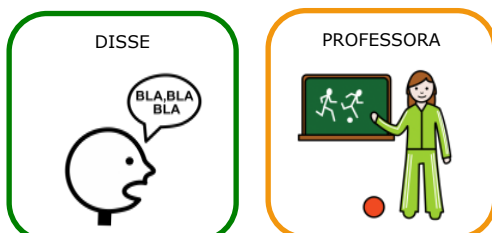

alternaram-se e lançaram uma bola

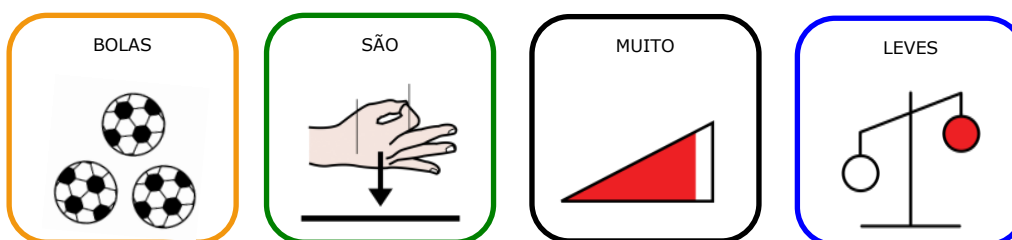

vermelha ou azul.

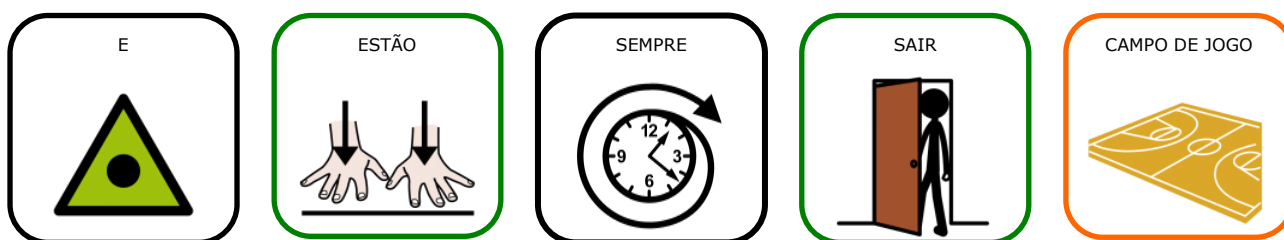

- Ah! Temos um problema! -

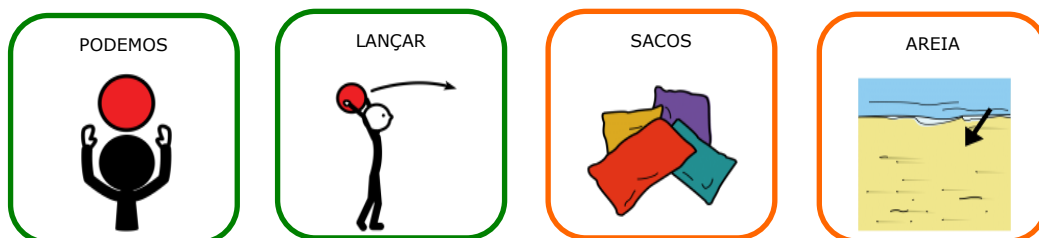

disse a professora.

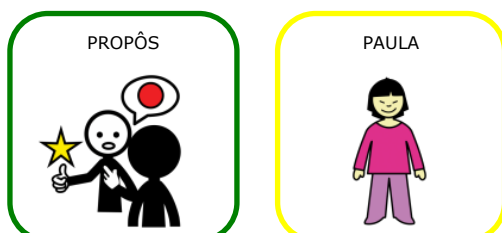

As bolas são muito leves

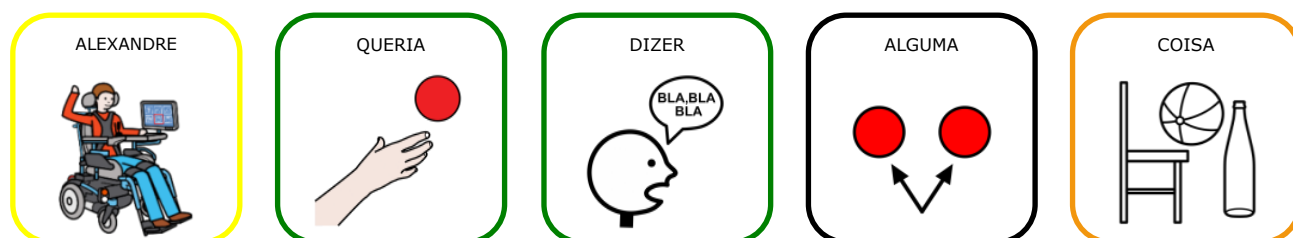

e estão sempre a sair do campo de jogo.

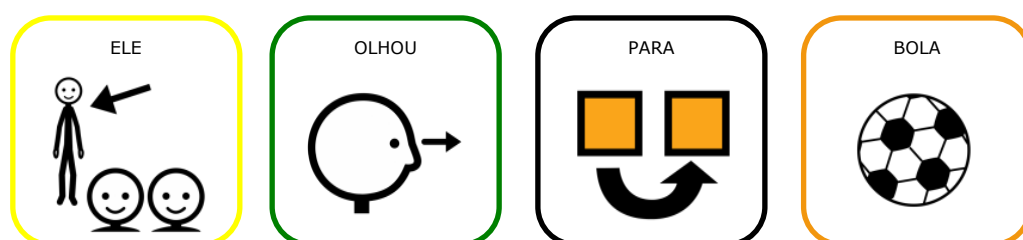

- Podemos lançar sacos de areia! -

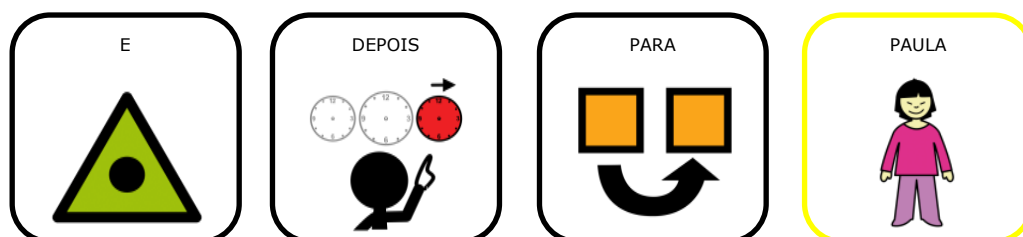

propôs a Paula.

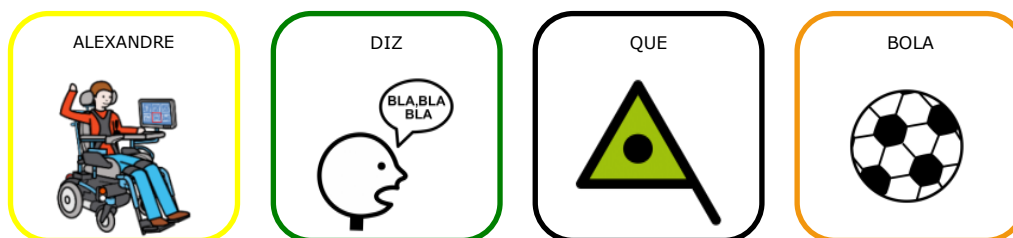

O Alexandre queria dizer alguma coisa.

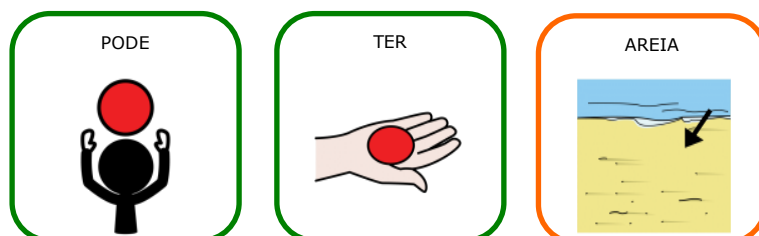

Ele olhou para a bola

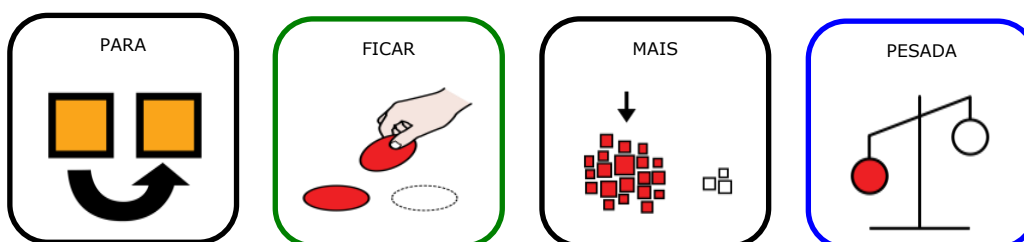

e depois para a Paula.

- O Alexandre diz que a bola

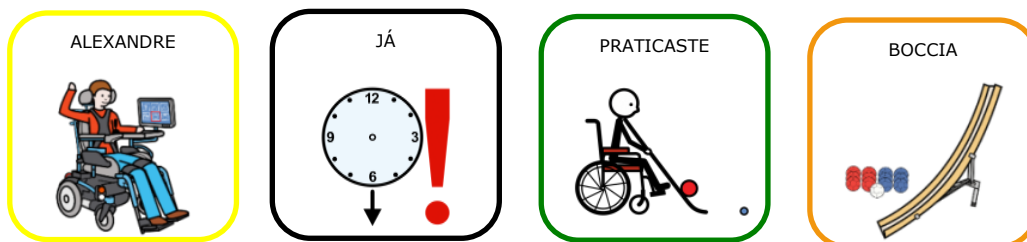

pode ter areia

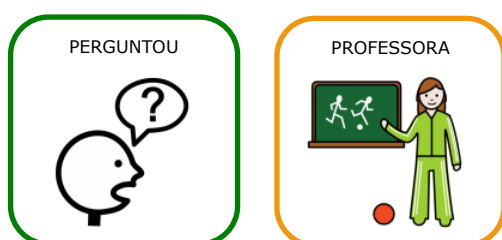

para ficar mais pesada! -

percebeu rapidamente a Luísa.

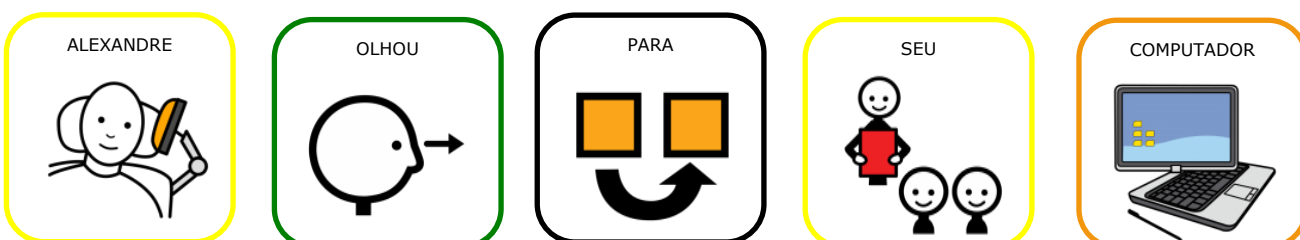

- Alexandre, já praticaste Boccia? -

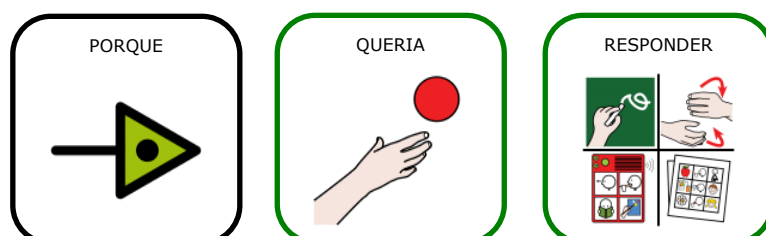

perguntou a professora.

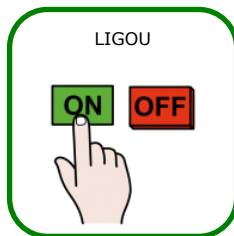

Nisto,

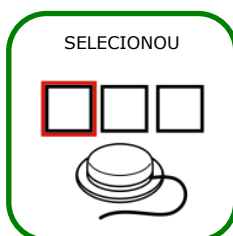

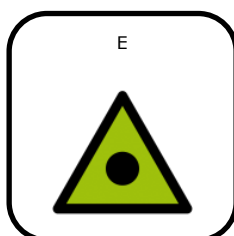

o Alexandre olhou para o seu computador,

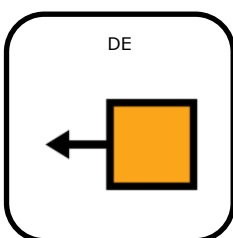

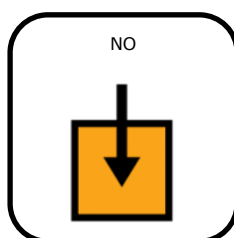

porque queria responder.

A professora ligou o computador

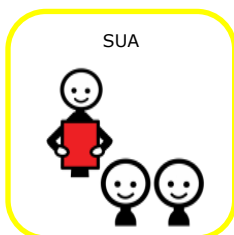

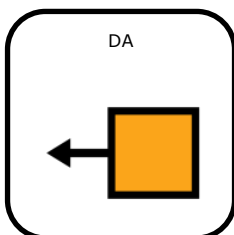

e o Alexandre selecionou a resposta

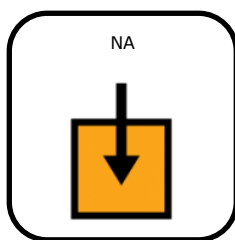

no álbum de fotografias:

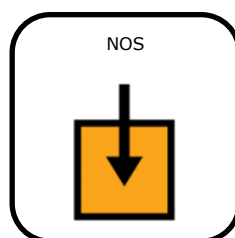

uma fotografia

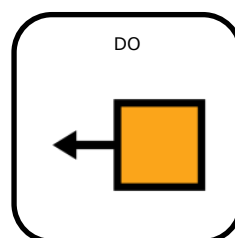

da sua participação

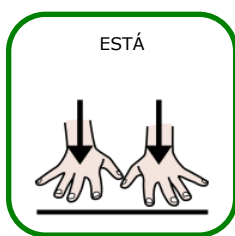

na competição de Boccia

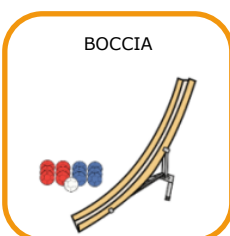

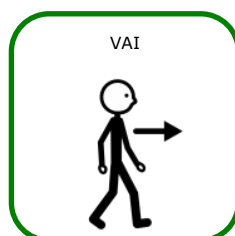

nos Jogos Escolares:

uma fotografia do Diário de Notícias da Madeira.

- Está decidido.

O 5.º 7 vai praticar Boccia!
